

# Your Partner in Navigating All Things People

*Fractional Human Resource solution helping CEO's and owners navigate the litigious waters of HR compliance and people. Providing timely and tailored consultation to get your business sailing in the right direction!*

## REASONS TO CONSIDER FRACTIONAL HR HELP:

### **Knowledgeable and neutral investigations**

Investigations require specialized and impartial expertise in order to fulfill employer's legal obligations.

### **Partnership over additional headcount**

Justifying the addition of HR to your team may not be an option. As-needed advice can provide immediate value.

### **HR expertise in the midst of change**

Interim HR leadership ensures your business has the strategy and experience while the team has the support they need to remain focused and productive.

### **Trusted outside perspective**

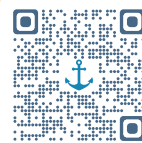

Reviewing current company processes with an HR Audit can expose several risks. Preventative and proactive, self audits offer an opportunity to show goodwill while significantly reducing your risk of legal action.

**Rhiannon Albert** SHRM-CP, PHR

Rhiannon has over 22 years experience as a Human Resources Professional serving all industries of business.
